LONG-TERM PLAN (3-YEAR TIMESCALE):

Priority 1: Improve the progress of pupil premium students with SEN K

Rationale: Attainment and progress of this focus group has been historically low at Murray Park. Students with SEN K PP face additional learning barriers which can further hamper their achievement at school if appropriate support is not in place. There are a significant number of students who are pupil premium and SEN K PP (50% of all SEN K PP students are pupil-premium). In 2020 (CAGs) SEN K PP PP -0.95 and +0.09 for SEN K PP showing a gap of -1.04. Nationally, pupil-premium and SEND students have an attainment gap of 22.0 compared to non-SEN students ([source: EEF Attainment Gap Report](#)).

Link to school improvement priority: Objective one, which is to ensure that achievement is above national average.

Priority 2: Ensuring financial support is available to pupil premium students

Rationale: Pupil premium lack the funds, from home, to access school as easily as other students. This is widely acknowledged nationally pupil premium families often lack the means to support students with revision maters, food, transport and clothing and this has been worsened due to the recent covid-19 pandemic, it is likely the effects of this will continue for the foreseeable future ([source: Legatum Institute](#)).

Link to school improvement priority: Objective three, improve the attendance to 96% and reduce persistent absence to 9%, and objective one to ensure that achievement is above national average.

Priority 3: Improve the progress of pupil premium boys.

Rationale: Achievement of pupil premium boys is lower than their non-pupil premium counterparts. In 2020 (CAGs) showed a progress gap of -0.46 between PP boys and non-PP boys and a gap in 2019 of -0.14. The achievement of pupil-premium boys is a nationally lower than their non-pupil premium counterparts ([source: SSAT blog](#), [National Association for Able Children in Education](#) and [TES Research](#))

Link to school improvement priority: Objective one, which is to ensure that achievement is above national average.

Priority 4: Improve the attendance of pupil-premium students

Rationale: Attendance of pupil-premium students has historically been lower than their non-pupil premium counterparts. In 2019/2020 (pre covid) pupil premium attendance was 92.97, although this was an increase of 1.45% from 2018/2019 it is still below the whole-school target of 96%. It is widely acknowledged that the most effective progress with pupil premium students is made when they are in the classroom so by improving their attendance ensures pupil-premium students get maximized benefit of time with their teachers ([source: EEF pupil-premium toolkit](#)).

Link to school improvement priority: Objective three, improve the attendance to 96% and reduce persistent absence to 9%.

Priority 5: To ensure the impact of covid-19 related school closures is mitigated on pupil-premium students

Rationale: Students have been adversely effected in academic years 2019/2020 and 2020/2021 due to the national lockdowns and bubble closures. This has caused a gap in learning for all students, but particularly pupil-premium students who may have lacked the resources or support for home learning ([source: EEF studies that measure the impact of school closures](#))

Link to school improvement priority: Objective one, which is to ensure that achievement is above national average.
